To Whom It May Concern:

Let me take this opportunity to recommend your engagement with Lake County Appeal. In the summer of 2014 our business was closing and our property was up for sale. We recognized a need to evaluate our real estate tax structure and ultimately reduce our tax liability. Because of the pending sale, this had to be done quickly and efficiently.

We met with Mr. Ronald Kingsley of Lake County Appeal in order to evaluate our options. Mr. Kingsley explained the process and provided realistic expectations. I was impressed by his sensitivity to our somewhat unique situation and his sense of urgency while sales options were being considered.

Within the allotted time frame, Lake County Appeal was able to achieve what was described during that initial meeting. Our taxes were reduced, saving us a large amount of money, well in excess of to six figures. Not only did this ease our tax burden but it added value to our property, allowing for a quicker sale.

Lake County Appeal was both professional and efficient and because of this I would highly recommend them to anyone looking for real estate tax reduction services.

Sincerely,

David J. Kaplan - CEO  
Maine Plastics, Inc.
